CURRICULUM VITAE

MD FAHIM MUNTASIR

Master's Student | Information & Communication Engineering

From Rajshahi, Bangladesh

EMAIL fahim79muntasir@gmail.com PHONE +880 1759 712379

ONLINE fahimuntasir.github.io | github.com/fahimuntasir | linkedin.com/in/fahimuntasir

PROFESSIONAL PROFILE

Master's student in Information and Communication Engineering with a computer science background. Experience includes technical support, Python experiments, C++ algorithms, embedded-system simulation, financial administration and project coordination.

EDUCATION & RESEARCH

Master of Engineering

September 2026 - Present

Information and Communication Engineering

Changchun University of Science and Technology | Changchun, China

Research direction: Wireless Network Communication Technology

Bachelor of Engineering

September 2019 - December 2023

Computer Science and Technology

Hubei University of Technology | Wuhan, China

GPA: 3.78 / 5.00 | Average score: 88.58%

PROFESSIONAL EXPERIENCE

Technical Support Engineer

January 2026 - August 2026

MotionHost | Remote | Dhaka, Bangladesh

- Provided support for domains, DNS, hosting, SSL, email and cPanel settings.
- Troubleshot website and hosting issues and responded to technical support requests.

Finance & Admin Coordinator

June 2025 - December 2025

Adivasi Unnayan Sangstha (AUS) | Netrokona, Bangladesh

- Prepared payroll, budgets, financial reports, and VAT/tax documentation.
- Supported audits, fund release, office administration, and KoBo field monitoring.

ECCD Officer

March 2024 - May 2025

Adivasi Unnayan Sangstha (AUS) | Sunamganj, Bangladesh

- Supervised implementation and quality of early-childhood development activities.
- Coordinated stakeholders, field monitoring, capacity-building and reporting.

PROJECTS & QUALIFICATIONS

SELECTED TECHNICAL PROJECTS

GRADUATE INFORMATION THEORY / PYTHON

Entropy and Mutual Information in Modern Machine Learning

Python simulations of MI estimation, feature selection, noise and nonlinear relationships.

Code: github.com/fahimuntasir/entropy-mutual-information-ml

ALGORITHMS / C++

Banker's Algorithm

Implemented safe resource allocation and deadlock avoidance in C++.

Code: github.com/fahimuntasir/The-Banker-s-Algorithm

EMBEDDED SYSTEMS / PROTEUS

Snake Game Player

Simulated a microcontroller-based Snake Game using Proteus.

Code: github.com/fahimuntasir/Snake-Game-Player

ADDITIONAL PROJECTS

Java Doubly Linked List | C# / .NET Material Inventory Management System
Laravel / PHP / MySQL Classified Multi-Vendor Ads Management Website

TECHNICAL TOOLKIT

PROGRAMMING	Python / C & C++ / Java / C# / JavaScript
WEB & DATA	HTML & CSS / PHP / SQL & MySQL
ENGINEERING	MATLAB / Proteus / Git & GitHub / Jupyter Notebook
OTHER	Technical troubleshooting / KoBo Toolbox / Reporting

HONOURS & AWARDS

Outstanding International Student
Second-Class Scholarship | HBUT | 2022

Model Student
Third-Class Scholarship | HBUT | 2021

LANGUAGES

Bangla	Native
English	Intermediate
Chinese (Mandarin)	Basic

PROFESSIONAL DEVELOPMENT

Orientation on MEAL Framework — 16-18 May 2025 | Netrokona
CIPRB

Bridging Leadership for Collaboration — 1-3 February 2025 | Mymensingh
Synergos Bangladesh

Trainers Training (ECCD) — 25-31 May 2024 | Sunamganj
CIPRB
